DESIGNED WITH YOU IN MIND.

What do we see when we look through one of our windows? We see comfort, style, and versatility for our customers. The WestEdge™ family of windows was designed to be all of these things and more. Quality materials and consistent processes allow us to craft a beautifully engineered and durable product that lasts for years.

BUILT TO LAST.

Our windows offer an environment of strength to brave the outside elements while efficiently maintaining the comfort level inside your home. We independently test and certify our products to meet most building codes and energy requirements. West Window's attention to detail creates value and reliability you have come to trust over the years.

TOP-NOTCH SERVICE.

West's windows are built to last and so are our customer relationships. We take great pride in personally responding to your needs without the use of automated systems. Representatives, with an average of 25 years of experience in the industry, provide exceptional service based on extensive knowledge of the products we offer.

ENERGY-MINDED

Choosing windows for your home that provide the highest level of comfort and energy efficiency year-round is very important. With advanced technology Low-E² glass, the WestEdge™ Window Series helps block the sun's relentless heat and reduces fading of your home's interior furnishings, all while quietly improving the comfort level in your home. Our standard dual seal warm edge insulating glass spacer and available Argon gas fill helps assure the utmost in comfort and efficiency.

1 WARM EDGE GLASS SPACER

Our dual seal spacer system provides excellent thermal performance, a long-lasting seal, and improved sound control.

2 PREMIUM VINYL PROFILES

SunShield® High Performance vinyl compounds are formulated to withstand the harsh effects of weather and ultraviolet light.

3 CARDINAL LoE² GLASS

Go beyond ordinary glass and let Low-E²-270 help you handle the weather.

QUALITY & SERVICE

West Window

SINCE 1949

We appreciate you considering West Window. We have built a reputation of being a manufacturer that has a solid understanding of what makes us successful. The key to our success over these many years comes from our belief that this is a people business that relies on attention to details and unparalleled customer service.

Since 1949, we have demonstrated our commitment to providing exceptional products that are beautifully designed and engineered with ever-evolving building standards and energy requirements in mind.
